ABSTRACT

This bibliography contains citations of planning and development grant documents related to science and/or mathematics education that appeared in "Pacesetters in Innovation", February, 1969. There are 211 citations concerned with science education projects, 77 with mathematics, and 87 with both areas. Many projects cited concern additional curriculum areas. Projects cited include those concerned with curriculum development, innovative school organization, the establishment of field studies centers, innovative instructional methods, and other departures from traditional methods and organization. Each citation includes project title; the location of, and agency responsible for administering the project; the price; copies of the document; descriptors used in indexing and describing the document; and the "Pacesetters in Innovation" identification number. SCIENCE AND MATHEMATICS EDUCATION INFORMATION REPORTS

The Science and Mathematics Education Information Reports are being developed to disseminate information concerning documents analyzed at the ERIC Information Analysis Center for Science and Mathematics Education. The reports include three types of publications. Special Bibliographies are being developed to announce availability of documents in selected interest areas. These bibliographies will list most significant documents that have been published in the interest area. Guides to Resource Literature for Science and Mathematics Teachers are bibliographies that identify references for the professional growth of teachers at all levels of science and mathematics teaching. Research Reviews will be issued to analyze and synthesize research related to science and mathematics education over a period of several years.

The Science and Mathematics Education Information Reports will be announced in the SMAC Newsletter as they become available.

PREFACE

Information analysts at SMAC have reviewed Pacesetters in Innovation, February, 1969, to identify planning and operational grants related to science and mathematics education. The bibliography includes three sections -- (1) documents related to science education, (2) documents related to mathematics education, and (3) documents related to both science and mathematics education.

Each entry provides citation data and descriptive terms for the document. Prices listed are current EDRS prices. When ordering documents, be certain to include the ES accession number of each document and indicate whether you desire microfiche (MF) or hardcopy (HC). A 50¢ handling charge should be included for all orders. Requests for documents should be addressed to ERIC Document Reproduction Service (EDRS), the National Cash Register Company, 4936 Fairmont Avenue, Bethesda, Maryland 20014.

EXPLANATION OF BIBLIOGRAPHIC CITATION

(1) ES 001 692

This is the Pacesetters in Innovation identification number sequentially assigned to projects as they are processed.

(2) ELEMENTARY SCHOOL DEVELOPMENTAL MATHEMATICS PROGRAMS

Title of the project.

(3) IOWA, SIOUX CITY, WOODBURY COUNTY BOARD OF EDUCATION

This field indicates the state and city (location) and the legal educational (agency) responsible for conducting and administering the project.

(4) EDRS PRICE MF-$0.25 HC-$1.40

The microfiche (MF) and hardcopy (HC) prices issued by the ERIC Document Reproduction Service (EDRS) are indicated in this field.

(5) *DEVELOPMENTAL PROGRAMS, *ELEMENTARY GRADES, INSERVICE TEACHER EDUCATION, INSTRUCTIONAL MATERIALS, *MATHEMATICS CURRICULUM, TEACHING METHODS

Descriptors provide an indication of the ideas in the document. Each term, such as *ELEMENTARY GRADES, has been selected by an information analyst because the term is important for the identification of the document. Terms marked with an asterisk represent primary ideas in the document; the other terms represent ideas of lesser importance.
